INTELLIGENTLY

The first Web-connected printer with MFP benefits

So easy and intuitive, you'll love using it

The HP Designjet T2300 eMFP is so easy and intuitive that printing and scanning is virtually effortless. Its color touchscreen makes interacting with your printer a breeze. And direct printing eliminates print driver and network hassles.

- One-click print, scan, and copy.
- Create a print-ready PDF at the same time you print with HP ePrint & Share.⁽¹⁾
- Discover the power of touch—this eMFP's color touchscreen enables intuitive operation and page previews.
- Web-connected and easy to update. Software updates occur automatically, every six months.

Instantly share and manage content with your teams

This printing system is designed to inspire and aid collaboration in and out of your office. Easily print, scan, and share drawings with your partners and clients. An integrated large-format scanner lets you capture and share ideas in real time.

- Scan sketches and hand-annotated drawings.
- Scan drawings to create print-ready files. Share them via an e-mail link to your HP ePrint & Share library.⁽¹⁾
- Work on multiple projects at the same time with two rolls and smart switching.
- Keep the collaborative flow—you get consistent quality results with HP printing materials and Original HP supplies.

Print and scan on the go with HP ePrint & Share⁽¹⁾

Work with a printer that enables, rather than constrains, you. This printer does away with cables and drivers so you have greater freedom to print where and when it's most convenient—with a USB drive—in the office or at the client site.

- Instantly scan content, upload it, or send it directly to HP ePrint & Share.⁽¹⁾
- Print remotely⁽²⁾ to any large-format HP Web-connected Designjet from your computer or mobile device.
- Print TIFF, JPEG, and PDF⁽³⁾ files directly from your USB thumb drive; no PC required.
- Print to any HP Designjet printer without installing multiple drivers with HP ePrint & Share.⁽¹⁾

⁽¹⁾ HP ePrint & Share is a free Web-printing solution that lets you automatically manage content online. It requires an Internet connection.

⁽²⁾ Remote Printing will be available by end of 2011.

⁽³⁾ PDF files only available with PostScript accessory (optional accessory to be purchased separately) or buying PS versions.
